WORK EXPERIENCE

May - Aug 2023

IT Project Assistant | Ontario Ministry of Transportation

- Edited and optimized the Employment Ontario government website, MyEOIS, to ensure the delivery of error-free content and a smooth user experience, using Azure DevOps and git
- Enhanced web parts and components, resulting in improved user engagement and satisfaction
- Participated in an IAST logo design contest, showcasing creativity and design skills
- Developed an AI-based resume sorting system with collaboration and teamwork, streamlining the recruitment process and improving candidate evaluation

Fab 2020 - Apr 2022

Private Tutor / Tutoring Volunteer

- Provided in-person teachings to Grade 8 and 10 students about Grade 11 Math, English, and OSSLT Test preparation three times a week
- Organized worksheets/answer sheets and materials independently and encouraged students to adopt a self-directed learning style
- Regularly volunteered as a peer tutor at school to help academically struggling peers

RELEVANT EXPERIENCE

May 2023 - Current

Finance Secretary | University of Toronto Engineering Society

- Evaluate funding applications and make fair decisions regarding their approval or rejection
- Develop and implement budgets for a year, ensuring proper allocation of funds for various activities and events, such as project directorships, conferences, and special projects
- Document meeting minutes and maintain accurate and detailed records of the budget plan

Feb 23 - 24, 2023

Toronto Health Datathon | Google

- Won 2nd place in the competition
- Utilized linear regression analysis in Python to create a machine learning algorithm that predicts a patient's race/ethnicity based on the difference between SaO2 and SpO2
- Learned about the biases in AI/ML in medical fields from healthcare leaders and how to utilize them

Jan - Apr 2023

Project Manager | University of Toronto APS112

- Manage the project for the Optimization of Flow for Ambulatory Patients in an Emergency Department of Sunnybrook Hospital in Toronto, ON
- Define the scope and establish a detailed plan for the successful implementation of the project
- Delegate tasks to team members based on their talents and skills
- Ensure all external and internal deadlines are met with logical & appropriate decisions

Jan - Apr 2023

EWB Researcher | Engineers Without Borders

- Involve in the EWB SEJ Community Partnerships Project as a researcher
- Research environmental issues and the way people easily participate in city advocacy to disseminate current world issues
- Raise environmental awareness in the community and encouraged students to participate in the movement by introducing easy steps to improve the environment using social media
